

# HAPPY BIRTHDAY NETLIGHT!

18 years ago, in the middle of the dot-com bubble in 1999, Netlight was born. Since then we've gone from a small office in Sweden with merely a few employees, to offices all throughout Europe with more than 900 Netlighters to make the company all it can be! We are Netlight, and we are the only ones who can say that.

**Come celebrate our 18th birthday at lunch during Edge Summit!**
